enters into this agreement with Rainbow Equus Meadows Inc. also referred to as "Stallion Owner". Above named is referred to as "Mare Owner" in this agreement. "Mare Owner" is the owner or lessee of the mare to be bred, named below.

This service agreement is for the stallion _____ to breed the mare named _____

Breeding fee Mare Owner agrees to pay for this 20 _____ season stallion service is \$ _____ (incl. \$477 booking fee)

\$ _____ paid, Balance of \$ _____ due prior to shipping semen.

I understand that my mare must be examined by a licensed veterinarian with an ultrasound machine at about 18 and about 50 days after the last breeding day. Rainbow Equus Meadows will need to be notified of her pregnancy status at that time by phone or email so a breeding certificate can be issued after the breeding season, before foaling.

The stallion owner assumes responsibility to deliver live semen in viable condition at the time of delivery to the approved shipping address. This semen must be administered by a licensed veterinarian or by a breeding technician approved by Rainbow Equus Meadows Inc. only to the mare named in this agreement. If semen shipments are used for a mare other than named in this agreement without approval from the stallion owner a standard posted breeding fee and completed contract will be due immediately. This approval constitutes a part of the contract and without it the live foal guarantee is null and void. The semen must be administered on the day of delivery or the stallion owner shall be considered to have fulfilled the contractual obligations and any guarantees shall not apply.

In the event of stallion death or the inability to produce and ship viable semen from the stallion contracted for this service Rainbow Equus Meadows Inc. will substitute this fresh semen agreement for either frozen semen from the same or fresh semen from another Rainbow Equus Meadows Inc. owned stallion of the mare owners choice.

In case the mare does not conceive, Stallion Owner guarantees return privileges for the contracted mare during the course of the breeding season (March 1st - September 1st) and guarantees return breeding privileges for two seasons following the initial breeding season to insure Mare Owner a foal is produced as a result. A mare may be substituted with permission of the stallion owner and a statement from a licensed veterinarian. This contract is transferable with written permission of stallion owner.

Should the mare not produce a live foal that stands, sucks and survives the first 30 days after birth, the mare owner shall be entitled to above-mentioned return privileges. This guarantee shall only apply if the stallion owner is notified within one week of the foal's death. A statement of details by a licensed veterinarian must follow within 10 days or the guarantee becomes null and void. This clause is also binding in case of abortion. If the mare lost her pregnancy, Rainbow Equus Meadows needs a written statement or verification of this fact, mailed, emailed or faxed from the attending veterinarian.

The Mare Owner shall assume all responsibility for the condition of the mare and shall bear all risk of loss or damage to the mare whether by death, disease, injury, infection or otherwise, and by any cause whatsoever, and therefore agrees to hold the stallion owner, keeper or agent harmless for any and all damages associated therewith.

Fees, collection and shipping requirements:

A credit card to pay for container, collection and shipping is required (fill out on page 2) to order semen. Each regular collection is \$97. Orders after 9 am on the same day of shipment will have a \$50 surcharge. Approximate transportation costs are: Federal Express: \$85.00; Air Lines Counter to Counter: \$105.00; Courier Service to Airport: \$127.00. High quality disposable containers: \$27. They cost less to ship and do not need to be returned. Equitainers available upon request. Shipments outside of the regular season, March 1st - September 1st, will be accommodated when possible.

Fill out complete or return with a copy of your mare's papers so we can process your breeding certificate. Breeding reports are sent to the AHS, GOV, SWANA, ISR/OLDNA, RPSI and CWSHA. We send signed certificates to you and the AHS prior to foaling, after receiving pregnancy confirmations.

Mare: _____ Reg.#: _____ Year born _____ Breed: _____

Markings _____ Color _____

Mares Sire: _____ Dam: _____ Dam's Sire _____

A uterine culture is recommended if you have an older mare that was bred before, a mare that had a difficult birth/retained placenta, aborted last pregnancy or if you have any other reasons to be suspicious of her uterine health. We **do not** require proof of a clean culture but do expect you to follow your veterinarian's recommendations.
