Call or email Edgar or Susan at Rainbow Equus Meadows when your mare foals or on the first day of her heat cycle on which you wish to breed her. If you wish to bring your mare to our farm for breeding you can discuss that with Edgar or Susan as well. Explain to your veterinarian that the stallions may be collected in the morning and that notification is needed by 9:00AM (Pacific time) via phone, email or via fax the morning semen is to be shipped. When faxing semen request use included fax form when emailing spell out Mares name /stallion and shipping address. It will give both parties a record and eliminates mistakes. **If you do not get conformation from us within 2 hours follow up with a call.**

A valid credit card # is required prior to shipment of semen. This is used to cover container, collection and shipping costs as they occur. The CC # must be received prior to ordering semen.. Each collection is \$97 and container \$27 which will be charged on your CC as they occur.

Request for semen shipment must be made by 9 AM via phone, email or via fax on or before the day of semen shipment. Same day orders after 9 AM California time will be fulfilled if possible but cannot be guaranteed and will be charged an extra \$50. Please inform your veterinarian of this time deadline so he/she can schedule examinations accordingly and save you money. **Fax or email communication is preferred.**

The shipping containers we use are high quality disposable. They cost \$27 but will save you more \$ on shipping as they are lighter and do not need to be shipped back. 2 doses are shipped in syringes for clean, quick handling. Equitainers are only used on request.

Approximate transportation costs are: FedEx: \$85.00; If needed, Air Lines Counter to Counter: \$110.00; Courier Service to Airport \$127.00.
